Subject:	Distressed companies

Hi Ehud

I left a few messages with Y.V. but I did not find her.Maybe she is out of the country.What I have learned is that she still works with the Foreign Ministry and that may be a problem.

I will be in Europe until Wednesday and I will renew my search when I return.

On the other hand I have much more information on the Autostrada.It is one of the most important in Northern Italy grossing between half a million Euro a day during the week and up to one million on a good week-end.They are now in serious difficulty and could not repay their loans to the bank.I don't know the reasons,but that will be for the investors to check uf they are interested to acquire it.

As I told you I will be in Israel from the 12th to the 22sd.March and interested to meet together with you the representative of the people we work with.

Shabat Shalom

Avi
